

FASHION MAKER  
**CALVELEY**  
WE ❤️ MAKING GARNMENT

# who

Founded in 1985 in northern **Portugal**, CALVELEX began as a **family-run business** with only 20 employees. Today, we're a global reference in **premium garment manufacturing**, with 600+ employees, two production units, two cutting divisions and two logistics centers.

We specialize in **tailoring and soft tailoring garments** including dresses, blazers, bomber jackets, trousers, skirts, coats, and overcoats. Our products reach boutiques and retailers in **over 50 countries**.

At CALVELEX, we make clothes by people, for people - with care, purpose, and pride. **Craftsmanship** is not just part of our process; it is the essence of who we are. Fashion is our way of preserving and celebrating the legacy of generations. People are at the center of everything we do: those who skillfully create, and those who meaningfully wear.

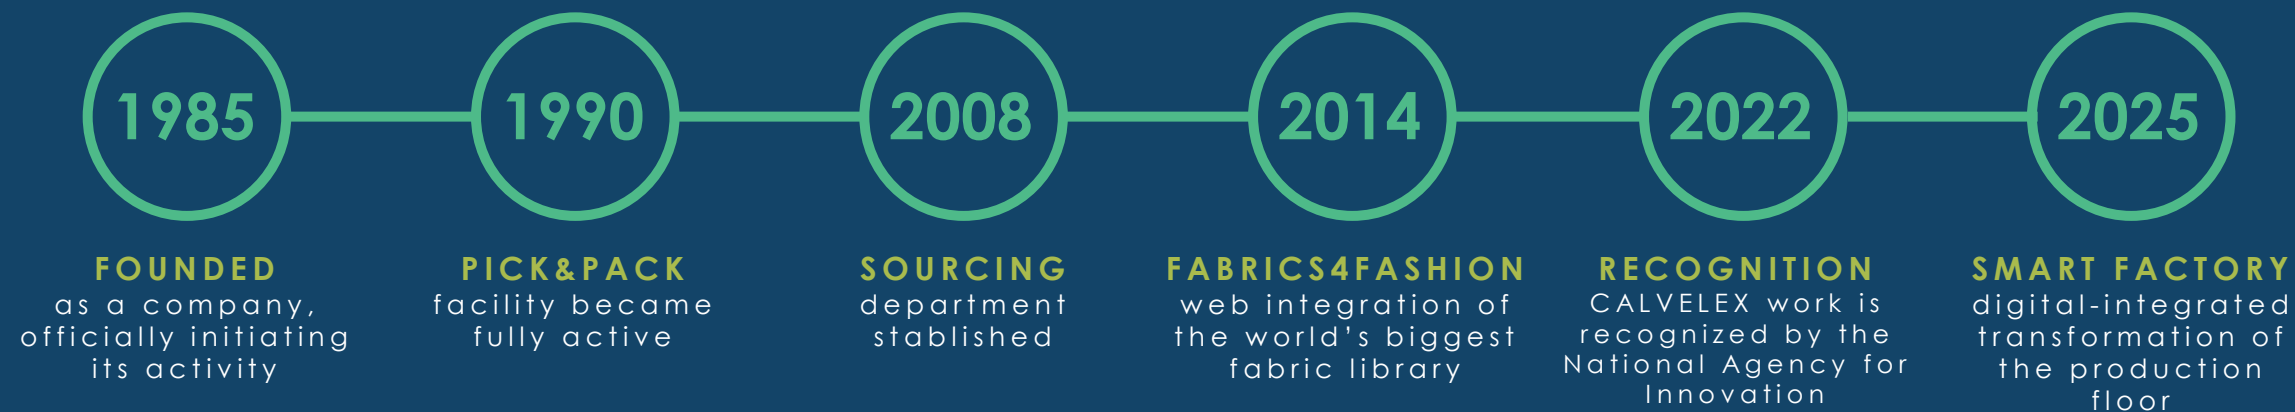

# when

CALVELEX's roots lie in three generations of tailors. The journey began with the great-grandfather of the founding family, who owned a small tailoring shop in northern Portugal.

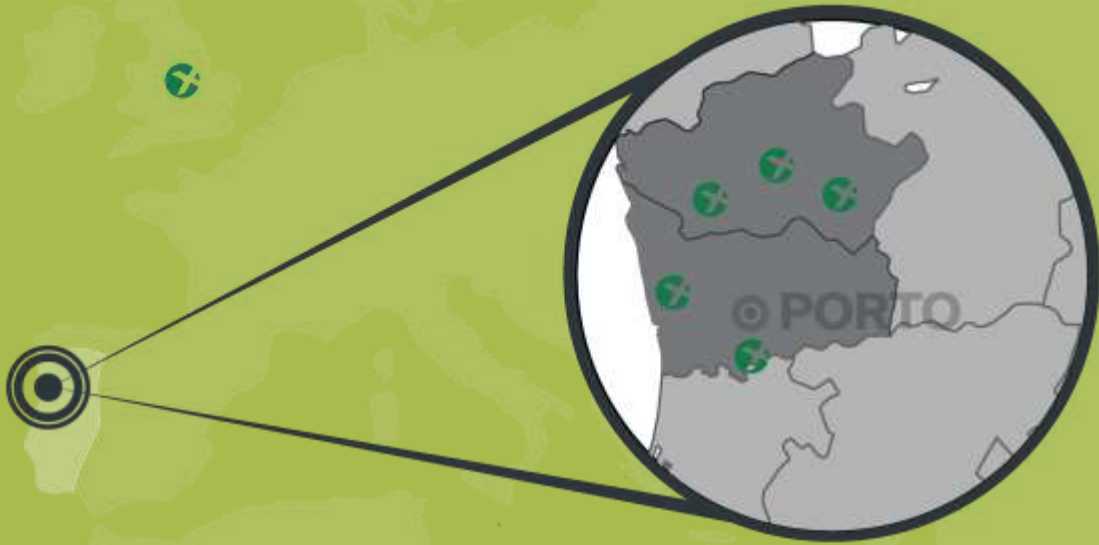

This **inheritance** carried on not only skills, but a deep respect for craftsmanship and the people behind each stitch. This legacy has guided CALVELEX from its humble beginnings in **1985** through every stage of growth.

The company has undergone a profound transformation over the past decade, investing in innovation and sustainability, and strengthening its **international footprint**.

These years marked a shift from traditional manufacturing to a forward-thinking, **fully integrated operation**. We're no longer just manufacturers; we are strategic partners, co-creating the future of fashion together with our clients.

# where

Our headquarters are based **nearby Porto**, right in the heart of Portugal's renowned textile industry.

All production and logistics units are **strategically located**, enabling **seamless coordination** and total control over the manufacturing process.

Positioned within one of Europe's most prestigious textile clusters, we benefit from **proximity to skilled workforce**, trusted material suppliers, and industry innovators.

While our core infrastructure remains local to ensure precision and efficiency, we've expanded our commercial presence across Europe, reinforcing client relationships and ensuring **responsiveness** in key markets.

# fully vertically integrated manufacturer

Flexibility is a core strength — offering **CM**, **CMT**, and **fully serviced** models, tailored to each client's unique needs, from material sourcing to final delivery.

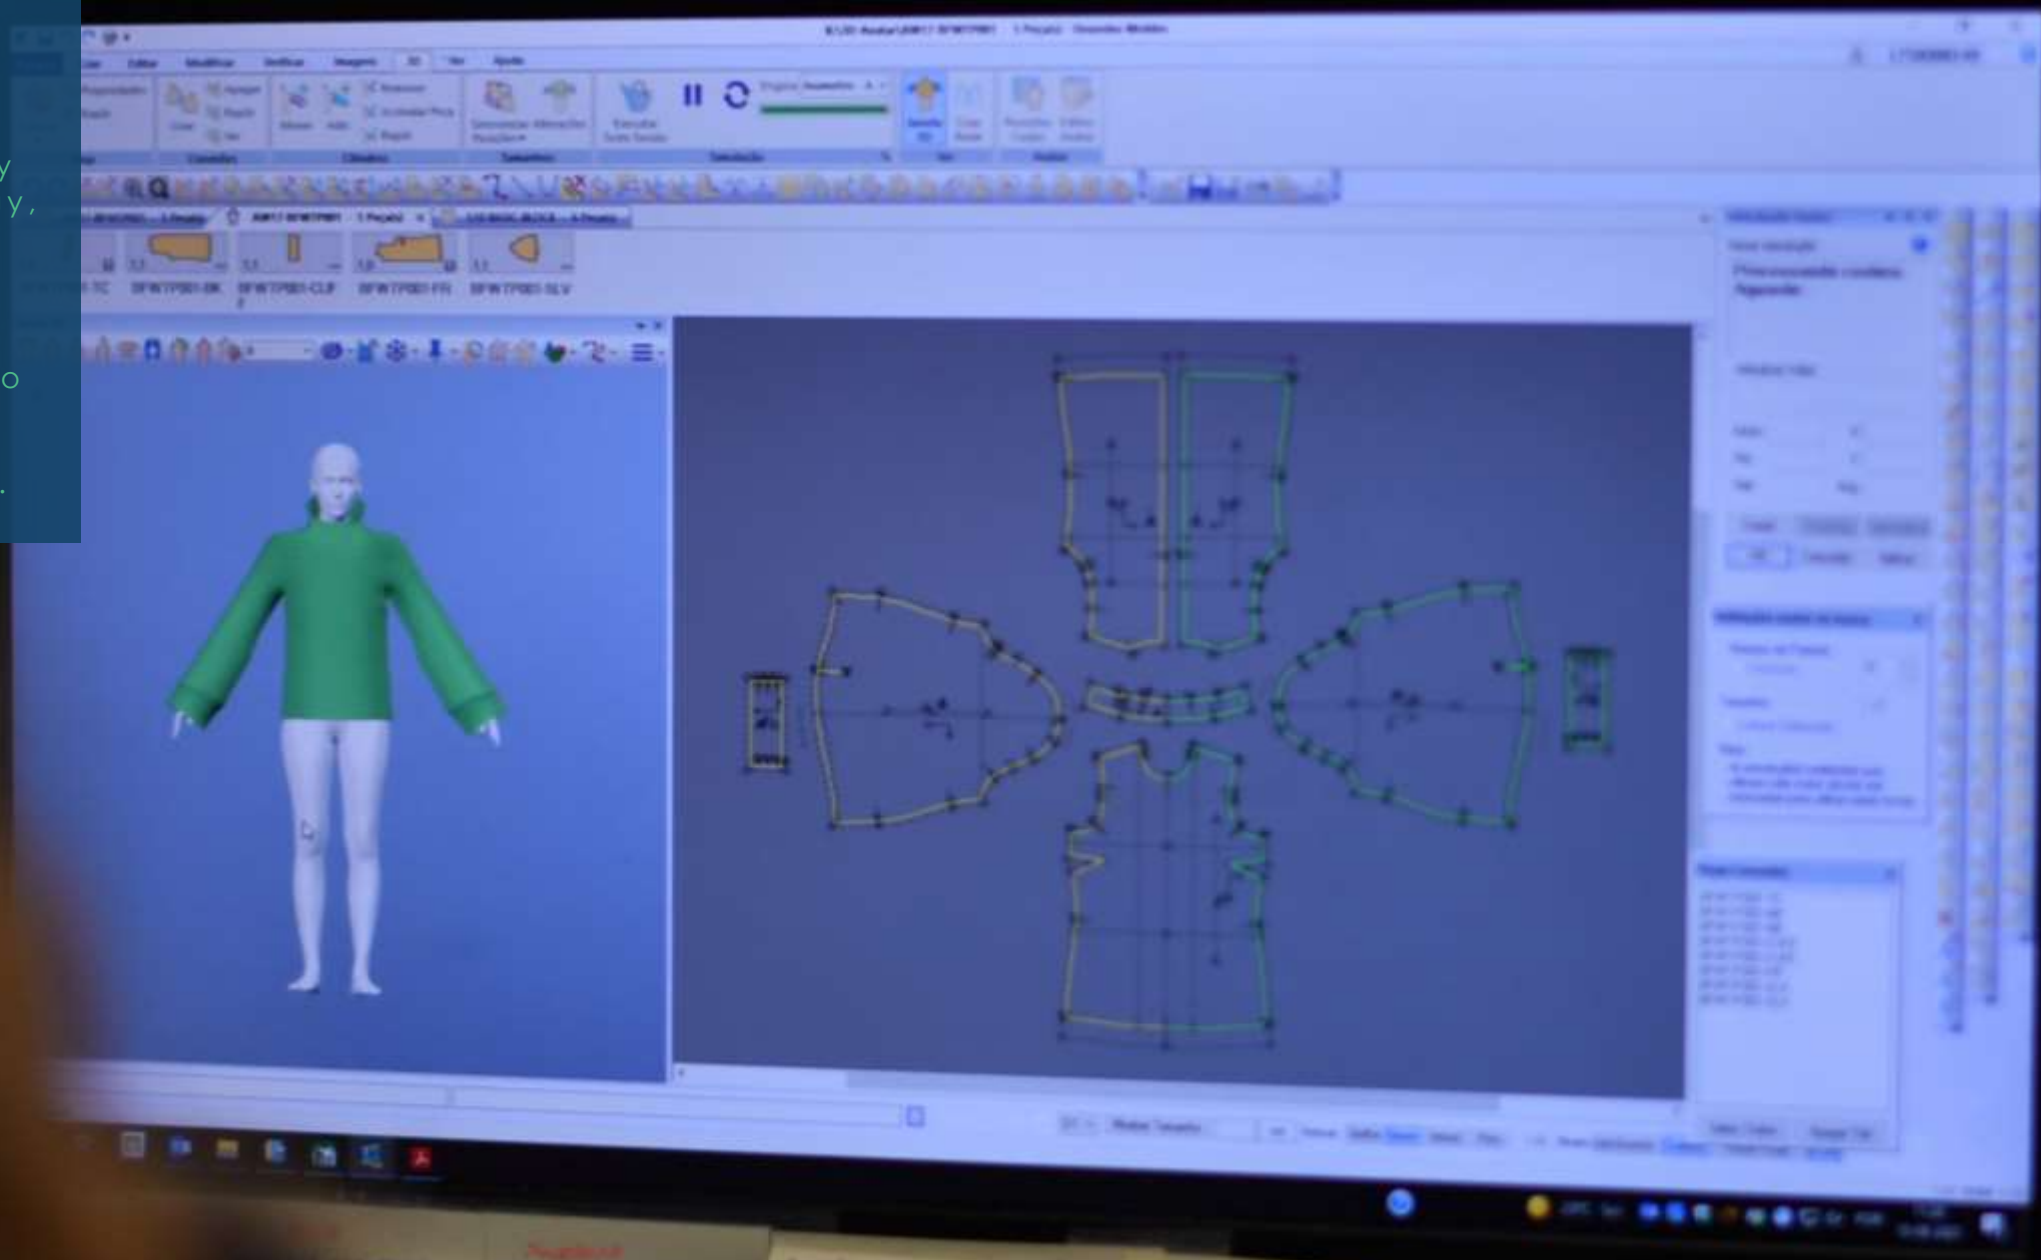

We're the **biggest vertically integrated** tailoring manufacturer in Portugal, combining **development**, **production** and **logistics** under one roof.

This centralization translates into **lower costs**, **greater flexibility**, and enhanced **process control** for our clients.

## CUTTING EDGE PATTERN MAKING

Advanced pattern making powered by the latest technology, including 3D resources, which ensures precision from the very first sketch and allows to reduce the conventional sampling timelines.

Handwritten notes on sticky notes in the foreground, likely related to the pattern making process:

- Analisi del corpo - 3D
- 1. Creare il modello 3D del corpo
- 2. Creare il modello 2D del corpo
- 3. Creare il modello 3D del corpo
- 4. Creare il modello 2D del corpo
- 5. Creare il modello 3D del corpo
- 6. Creare il modello 2D del corpo
- 7. Creare il modello 3D del corpo
- 8. Creare il modello 2D del corpo
- 9. Creare il modello 3D del corpo
- 10. Creare il modello 2D del corpo

A close-up photograph of a person's hands holding a roll of green fabric. In the background, there is a table with various fabric swatches in different colors and textures, and several brown buttons. The scene is brightly lit, suggesting a professional fabric sourcing or design studio.

## MATERIAL SOURCING & SMART DESIGN

supported by one of  
the world's largest  
fabric libraries and  
by our extensive  
fitting archives,  
curated by a  
development team  
that will help you to  
create innovative &  
tailored solutions.

A close-up photograph of a modern industrial sewing machine. The machine is black and silver, with a clear protective cover. It features several yellow safety warning labels, including a lightning bolt symbol and an exclamation mark. The machine is positioned on a white surface, and the background is slightly blurred, showing other industrial equipment.

## CUTTING EXCELLENCE

Our cutting process  
uses a hybrid system  
merging automated  
precision with manual  
craftsmanship that  
ensures accuracy for  
every material and  
design, regardless of  
complexity require  
extra care.

A person wearing a yellow safety vest is inspecting a white garment hanging on a rack. The background shows a factory or warehouse setting with other garments hanging on racks.

# what

Our specialized sourcing and development teams actively support **design innovation**, while our protocols include thorough checks of all fabrics and accessories to ensure they meet the **highest quality standards**.

All garments are carefully inspected before shipping, ensuring the highest standards are always met.

From concept to completion, each step is optimized to meet delivery goals and **maximize client success**, whether shipping to boutiques, warehouses or directly to end customers. A **drop-shipping** model is also available, enabling our clients to benefit from fully integrated, **end-to-end fulfillment** solutions.

## PRODUCTION

Two fully owned production units in combine technological investment with skilled craftsmanship, guaranteeing both quality and scalability.

END-TO-END  
LOGISTICS  
with two distinct  
Pick&Pack centers,  
we manage final  
inspection,  
packaging, stock  
holding, and drop-  
shipping with full  
process control.

# world's largest fabric library

We're home to what is considered the world's largest fabric library:  
**FABRICS4FASHION.**

A unique resource with **over 30,000** meticulously catalogued fabric references sourced from a vast **global supplier network.**

It accelerates product development, shortens sourcing timelines, and serves as a gateway to faster sampling, **smarter design**, and more informed production decisions.

# why

It's not about production, it's how we partner: with **trust**, **vision**, and **care**.

## Uncompromising Quality

From the first cut to the final stitch, each garment undergoes a **triple inspection**, because excellence is never negotiable.

## Reliability That Delivers

With all operations centralized, we guarantee **consistency**, **speed**, and full **transparency**.

## Tailored Flexibility

Whether it's a small capsule or a global collection, we'll **adapt to your pace**, scale, and distribution model.

## Experience Driven

Decades of **know-how** empower us to elevate your creative process and reduce development timelines.

## Craftsmanship with Soul

Our heritage is our people. They love what they do, and it shows.

## Responsible Future

Recognized by ANI for innovation and certified by SEDEX for ethical standards, BCI, and OCS-RCS-GRS-RWS for environmental compliance, sustainability isn't a trend, it's our **long-term commitment**.

**40**  
years of  
excellence

In 2025 CALVELEX **celebrates its 40th anniversary**. This milestone is not only a commemoration of our legacy but a reaffirmation of our values and vision for the future.

We **continue to evolve** by committing to innovation and sustainability, seamlessly blending these with our craftsmanship roots, remaining as a trusted global partner in the fashion industry.
